Toagosei Co., Ltd.

Installation of New Manufacturing Facilities and Reorganization of the Production System in the Polymer Flocculant Business

Toagosei Co., Ltd. (the "Company"; Hidenori Kobuchi, President, COO and Representative Director) announced today that its consolidated subsidiary, MT AquaPolymer, Inc. (Shoji Takayama, President; 90% owned by the Company and 10% by Mitsui Chemicals, Inc.), has decided to install new manufacturing facilities at the Company's Sakaide Plant and Nagoya Plant to improve production efficiency and strengthen its ability to ensure a stable supply of polymer flocculants. Through this initiative, MT AquaPolymer aims to reorganize its production system.

Overview of new manufacturing facilities and production reorganization

1. Powdered anionic polymer flocculants

   MT AquaPolymer will install new manufacturing facilities at the Sakaide Plant (Kagawa Prefecture) to consolidate the production of powdered anionic polymer flocculants currently manufactured at MT AquaPolymer's Mobara Plant (Chiba Prefecture) and by a contract manufacturer (Mitsubishi Chemical Corporation in Toyama Prefecture).

   - Scheduled start of operations at the new facilities: fall 2027 or later

2. Liquid polymer flocculants (emulsion)

   MT AquaPolymer will install new manufacturing facilities at the Nagoya Plant (Aichi Prefecture) and transfer the production of liquid polymer flocculants (emulsion) from MT AquaPolymer's Mobara Plant (Chiba Prefecture) to the new facilities.

   - Scheduled start of operations at the new facilities: January 2028 or later

Through this reorganization, we aim to improve productivity and strengthen our business foundation.
