Toagosei Co., Ltd.

Toagosei Selected as a Constituent Stock of the SOMPO Sustainability Index for the Third Consecutive Year

—An Index Comprising Approximately 300 Constituents with High ESG Ratings—

Toagosei Co., Ltd. (Hidenori Kobuchi, President, COO and Representative Director) has been selected for the third consecutive year as a constituent of the SOMPO Sustainability Index, an index comprising approximately 300 constituents recognized for strong ESG (environmental, social, and governance) performance.

The SOMPO Sustainability Index is a proprietary active index constructed by combining ESG scores—based on the Environmental Management Survey and the ESG Management Survey conducted annually by SOMPO Risk Management Inc.—and equity valuations by SOMPO Asset Management Co., Ltd. The index comprises approximately 300 constituents with high ESG ratings and is tracked by SOMPO Asset Management's Sustainable Strategy, an ESG investment strategy focused on long-term investment. Launched in August 2012, the Sustainability Strategy has since been adopted by multiple institutional investors, including pension funds.

Guided by its sustainability policy, "We take up a challenge to create new value to deliver happiness to future generations", Toagosei places the pursuit of sustainability and its ESG initiatives at the core of its management and strives to achieve a virtuous cycle between addressing social issues and creating corporate value.
