

Revision to the Price of Hydrochloric acid

Toagosei Co., Ltd. hereby announces that it has decided to increase the selling price of the following products and has entered into negotiations with its customers.

1. Product Subject to the Increase in Price

Hydrochloric acid (Hydrochloric acid, Clear hydrochloric acid, Synthetic pure hydrochloric acid)

2. Size of the Increase in Price

Rory: Factory shipment 9 yen per kg

Stock point shipment 15 yen per kg

Poly can: 20 yen per kg

3. Timing of the Increase in Price

Products shipped from February 1, 2025

4. Background to the Increase in Price

The aforementioned product is expected to experience a tightening supply-demand balance due to a decrease in supply caused by business restructuring among some manufacturers, despite steady demand. Therefore, our company is promoting the strengthening of our supply system, including capacity expansion, to ensure stable supply. Additionally, rising costs of raw materials, logistics, labor, and fixed costs such as repair expenses are putting pressure on our profitability.

Under these circumstances, we have been striving to reduce costs and rationalize production; however, there are limits to what we can achieve through our own efforts alone. We have determined that a revision of product prices is necessary to strengthen our supply system and maintain stable supply.
