Toagosei Co., Ltd

Revision to the Price of Chemical Products

Toagosei Co., Ltd. hereby announces that it has decided to revise the selling price of the following products and has entered into negotiations with its customers.

1. Products and Price Revision Range

| | |
|--------------------|--------------------------------------|
| ATBS® | : Increase of 150 yen per kg or more |
| Ethylene carbonate | : Increase of 200 yen per kg or more |

2. Timing of the Price Revision

Products shipped from May 1, 2026

4. Background to the Price Revision

The products have been facing significant pressure on profitability due to sharp increases in raw material, energy, and logistics costs driven by heightened tensions in the Middle East. These factors, together with rising repair and labor costs, have further exacerbated the pressure on profitability.

Despite our efforts to reduce costs and improve production efficiency, further improvements in profitability through these efforts alone have reached their limit. Therefore, we have determined that a revision of product prices is necessary.
