Toagosei Co., Ltd

Revision to the Price of Sulfuric Acid

Toagosei Co., Ltd. hereby announces that it has decided to revise the selling price of the following products and has commenced discussions with its customers.

1. Products
   Fuming Sulfuric Acid (Oleum), Concentrated Sulfuric Acid, and Dilute Sulfuric Acid

2. Price Revision Range
   Increase of 25 yen per kg or more

3. Effective Date of the Price Revision
   For shipments on and after November 1, 2026

4. Background to the Price Revision
   Against the backdrop of supply concerns and logistical disruptions caused by heightened tensions in the Middle East, the price of sulfur, a key raw material, has risen sharply. In addition, various costs, including transportation and maintenance expenses, have increased, and the business environment remains challenging.
   We have been making efforts to reduce costs, including improving production efficiency. However, further improvements through our own efforts alone have reached their limit. Therefore, in order to maintain stable production and supply, we have determined that a revision of product prices is necessary.
